Drink Menu Over!!

Tequilas

Blanco/Silver \$

Bottles within two months of distillation, these Tequilas are stored in stainless steel barrels, allowing the flavors of the agave to integrate and shine through. Great in Margaritas!

Reposado \$\$

A Reposado spends between two and twelve months in Barriques (oak barrels). This slight aging accentuates the agave flavors and adds aromas slight smoke and vanilla rounding out the citrus.

Anejo \$\$\$

Aged in oak for a minimum of twelve months, though many producers prefer more aging time in the barrels. Anejos are easily recognized by their dark color and pronounced aromas of vanilla, smoke and oak, characteristics imparted by the barriques.

FYI

You can turn any of our tequilas into a margarita, hubcap or a pitcher!
Please check with your server about the price first!!
